SKILLS

General Skills

- Python

Git

Apache Spark
- MongoDB

SQL

FastAPI

LangChain
- LlamaIndex

Hugging Face
- Scikit-learn

XGBoost

PostgreSQL
- Data visualization tool

Java
- OpenAPI

NumPy
- Testing frameworks

Data & AI

- PyTorch

TensorFlow

Cloud & Infrastructure

- Docker

AWS

Frontend & Design

- React

LANGUAGES

- Italian

English

PROFESSIONAL SUMMARY

Data Scientist with expertise in LLM integration, cloud computing, and MLOps, complemented by experience in education and computational thinking. Passionate about bridging technical complexity with accessible learning.

PROFESSIONAL EXPERIENCE

Data Scientist | Freelance2024-09 – 2024-11

Mangini s.r.l.

- Architected price forecasting models using ARIMA, SARIMAX, XGBoost, and LSTM to predict sales trends
- Optimized data preprocessing pipelines for 10-year historical sales data
- Built interactive dashboards using Plotly-Dash for spatial-temporal sales analysis

Permanent Middle School Teacher | Part-time2021-01 – Present

MIM

- Designed curriculum to teach computational thinking to middle school students
- Mentored team to qualify for national problem-solving Olympics (2023)
- Enhanced communication skills to effectively explain complex concepts to diverse audiences

EDUCATION

Master's Degree2019 – 2024

Università degli Studi dell'Insubria – Computer Science

Bachelor's Degree2014 – 2019

Università degli Studi dell'Insubria – Computer Science

Master's Degree2010 – 2013

Università degli Studi di Milano – Modern Literature

CERTIFICATIONS

Agentic AI2026

Deeplearning.ai

Integrated LLMs with web search, SQL databases, and sandboxed code execution. Developed autonomous AI workflows using Reflection, Tool Use, Planning, and Multi-Agent Collaboration. Implemented evaluation frameworks for agent performance optimization.

AWARDS & HONORS

Coach team to nationals in problem-solving Olympics (2023)
