PROFESSIONAL SUMMARY

Senior Portfolio Manager with 11+ years of experience managing fixed income and multi-asset portfolios for institutional clients, sovereign wealth funds, and pension schemes. Former Vice President at Mediobanca's Asset Management division with a track record of consistently outperforming benchmarks across market cycles. CFA charterholder and ESG specialist with deep expertise in sustainable investing frameworks (SFDR, EU Taxonomy, TCFD). Experienced in quantitative portfolio construction, risk management, and macroeconomic forecasting with a focus on European and emerging market debt.

PROFESSIONAL EXPERIENCE

Senior Portfolio Manager — Fixed Income & ESG Strategies

Mediobanca Asset Management (RAM Active Investments) | Milan, Italy

June 2019 – Present

- Manage €3.2 billion in AUM across 5 fixed income funds and 2 ESG-integrated multi-asset strategies, consistently ranking in the top quartile of Morningstar peer groups
- Led the development and launch of the "Sustainable European Bond Fund," the firm's first Article 9 SFDR fund, which attracted €450 million in inflows within 18 months
- Implemented a proprietary ESG scoring model integrating EU Taxonomy alignment, SFDR Principal Adverse Impact (PAI) indicators, and proprietary climate risk metrics
- Delivered annualized returns of 6.8% (gross) for the flagship European Corporate Bond Fund over a 5-year period, outperforming the Bloomberg Euro Aggregate Corporate Index by 142 basis points annually
- Present investment strategies and market outlook to institutional clients, consultants, and regulators, conducting 80+ client meetings and roadshows annually across Europe and the Middle East

Portfolio Manager — Emerging Market Debt

Amundi Asset Management Italy | Milan, Italy

September 2015 – May 2019

- Co-managed a €1.8 billion emerging market debt fund, focusing on hard currency sovereign and quasi-sovereign bonds across Latin America, Eastern Europe, and Asia
- Developed a quantitative country risk model incorporating macroeconomic fundamentals, political risk indices, and ESG factors, improving portfolio Sharpe ratio by 0.35
- Negotiated and structured private debt placements with sovereign issuers in Italy's target emerging markets, generating 150+ basis points of illiquidity premium

- Collaborated with Amundi's Paris-based research team to produce the annual "Emerging Market Debt Outlook" report, distributed to 5,000+ institutional clients globally

Fixed Income Analyst & Trader

UniCredit Corporate & Investment Banking | Milan, Italy

July 2012 – August 2015

- Covered Italian government bonds (BTP), covered bonds, and financial subordinated debt for the bank's proprietary trading desk and institutional sales
- Developed automated trading algorithms for relative value strategies in the European government bond market, reducing execution slippage by 40%
- Provided real-time market commentary and trade recommendations to the bank's top 20 institutional clients, contributing to €15 million in annual trading revenue

EDUCATION

Laurea Magistrale in Economia e Finanza (MSc in Economics and Finance) — 110/110 cum Laude

Università Commerciale Luigi Bocconi | Milan, Italy

September 2009 – July 2012

Thesis: "The Impact of Quantitative Easing on European Corporate Bond Spreads: An Event Study Analysis" — awarded the Bocconi Prize for Best Finance Thesis

Bachelor's Degree in Business Administration (Laurea Triennale in Economia Aziendale)

Università degli Studi di Padova | Padua, Italy

September 2006 – July 2009

Executive Program in Sustainable Finance

INSEAD Business School | Fontainebleau, France

March 2021 – June 2021
